Source Error:

The source code that generated this unhandled exception can only be shown when compiled in debug mode. To enable this, please follow one of the below steps, then

1. Add a "Debug=true" directive at the top of the file that generated the error. Example:

```
<%@ Page Language="C#" Debug="true" %>
```

or:

- 2) Add the following section to the configuration file of your application:

```
<configuration>  
  <system.web>  
    <compilation debug="true"/>  
  </system.web>  
</configuration>
```

Note-1 9/28/2018 04:10 PM

Conforme o campo "Vencimento" eh preenchido com caracteres não numéricos, gera uma pagina contendo o erro para o servidor. Poderia ser replicado o mesmo popup alert utilizado no outro campo data, o campo "Data programada pgto", do qual avisa o preenchimento invalido.

End of report.
